Kwame Hassan

Software Engineer - Backend
kwame.hassan@example.com | +1-555-357-1832 | linkedin.com/in/kwame

SUMMARY

Results-driven software engineer - backend (3+ yrs) focused on Java and Spring Boot. Comfortable owning features end to end and working with cross-functional teams.

Employment History

Software Engineer - Backend - Ironclad Insurance
Apr 2024 - Present
- Migrated a monolith to event-driven Microservices using Kafka, reducing order processing delay by 60%
- Introduced unit and integration testing standards, raising coverage from 45% to 82%
- Tuned MySQL queries and added Redis caching, cutting p99 latency from 900ms to 120ms

Senior Java Developer - Nimbus Cloud
May 2023 - Mar 2024
- Designed REST APIs consumed by web and mobile clients, with contract tests and versioning
- Implemented idempotent consumers and dead-letter queues for reliable event handling
- Owned on-call for three services and wrote runbooks that halved mean time to recovery

Core Skills

Java, Spring Boot, Microservices, MySQL, JUnit, Hibernate, MongoDB

EDUCATION

B.E. in Information Technology, University of Melbourne (2022)

PROJECTS

- Ticket booking system with seat locking
